# LANEXO® Lab Inventory, Safety and Compliance Management System

## Release Notes

LANEXO® System Release Notes provide a brief insight into updates on the Mobile and Web Applications.

It uses a number logic for the releases of Mobile App and Web App, where the first digit on the version number indicates a new major release with brand new features. The second digit indicates minor releases which adapt existing features, and the last digit is intended for bug fix or security fixes only.

## Intended Audience

All customers and users of the LANEXO® System.

## Note

Please schedule an **upgrade** under **Administration menu > Version Control** on **Web app** for the latest version with new features/improvements and bug fixes.

Users might have to analyze the impact for additional validation needs of the Application at their site, before upgrading to the new release.

## Version History

| Date | Version | Description |

# LANEXO® System

Release Date: 22-April-2023

## Resolved Issues

The following tables detail the new features/improvements, resolved issues such as bug fixes and security fixes in this release.

## Bug Fixes

| Module | Description |
|---|---|
| **Web** | Removal of a decommissioned server which is being used for article registrations. |
| | Fix for integration module as it is not completed for existing users. |
| | Fix for approval category as it only displays user category instead of all categories. |
| | User is not receiving emails for conflicting items in hazard locations. This was fixed. |
| | Profile updates are not routed for approval, which is fixed. |
| | User is able to upload a file without entering the reason for the change. |
| | Configuration for authentication is missing for the German language. |
| | Renewal session notification is not displayed. |
| | Default sorting options in the approvals table are not showing on the top. |
| | For items only, the status flags are not listed according to priority. |
| | Mixed storage rule emails shows the details in a misaligned way. |
| | Uploading a file with a lengthy filename as a "Other Document" is not working. |
| | Filtering for article and item tables are sometimes not displayed correctly. |
| | Error message is displayed when trying to filter an item in the article name column. |
| | Changing name and active state for system users fails. |
| | Reason for change field is showing in the item change approval page after a request has been approved. |
| | When printing a barcode, the GHS codes are not shown properly. |
| | When trying to print a barcode, the dialogue box is overlapping with the "unit". |
| | For available items, the status is not displayed in the article detail screen. |
| | For available items, the closed status is not displayed in the item table status column. |
| **Mobile App** | Unable to perform an experiment in normal and extended session. Unknown error shown, this has been fixed. |
| | Renewal session notification is not displayed. |
| | Account waiting for approval error is shown for users who do not have device manager role. |
| | Session renewal notifications are triggered in different intervals. |

**Merck**

## Note

Please update your LANEXO® Mobile App, in-order to see the fixes.
